

# Plateau Sports Park

## Multi-Purpose Edge and Kids Park

Precedent Images for Multi-purpose Edge

### Multi-Purpose Edge

- A continuous element inspired by the neighbouring Wooden Coaster in Playland
- A long seating edge that interacts with its adjacent spaces and changes form in response to the needs of the space
- Purposefully positioned frames with bold colours along the edge define the spaces within the Plateau
- Incorporated into a play element at Kids Park.

Precedent Images for Kids Park

### Kids Park:

- Hills and Valleys - A combination of pathways around small hills and dales
- Slide Zone - Elements that take advantage of the slope down to field house level
- Sand Play - Sand pit with water play element in a naturalized setting
- Preschool Play - A visually contained area for young children in a naturalized setting
- The Pump Track - A small scale pump track for young children with push bikes.
